

MAVERICK

Adolescent Self-Esteem Building

The *MAVERICK* Program teaches boys to be independent, responsible, and respectful.

A healthy self-esteem protects us from the conflicts and negative pressures of life. Horses make this learning “stick,” like a cowboy to the saddle. Through this program, boys will identify personal strengths and will learn better communication and problem-solving skills, respect, trust, and the importance of self esteem.

MAVERICK sessions are open to boys grades 4-6, 6-8, 8 and up. Visit our website for dates and pricing.
